## **Acquisition Analyst, Senior – 01058989**

### **Job Description**

#### **Description**

Key Role:

Provide programmatic, planning, technical, risk mitigation, and decision analytical support to the leadership of the US Coast Guard C4ISR program, CG-933. Assist with acquisition development, modification, production and test programs and provide analysis to facilitate the development of budgets, contracts, and technical evaluations involving cutters, aircraft, boat platforms, and shore facilities. Provide analytical support for the development and independent verification and analysis of key project documents, including the acquisition program baseline, life-cycle cost estimate, acquisition and contracting strategy, project management plan, integrated logistics support plan, acquisition plan, test and evaluation master plan, alternatives analysis, and draft solicitations. Verify completeness and ensure documents comply with the Major Systems Acquisition Manual, CIM 5000.10. Review and provide input to internal and external project reports, including OMB Exhibit 300, the Department of Homeland Security periodic report, and contract performance reports. This position is located in Arlington, VA.

#### **Qualifications**

Basic Qualifications:

- 7+ years of experience with DoD or Department of Homeland Security (DHS) acquisition programs in life-cycle management support of complex systems or technical solutions involving the successful management of teams composed of engineers, scientists, and management professionals
- Knowledge of DoD or DHS acquisition policies, procedures, and regulations
- BA or BS degree

Additional Qualifications:

- Experience with managing C4ISR-, shore-, surface-, or aviation- related acquisition and interoperability projects
- Experience with DII COE a plus
- Knowledge of the Major Systems Acquisition Manual, CIM 5000.10, or of DoD 5000 a plus
- Knowledge of Coast Guard organization and acquisition management practices preferred
- Ability to work effectively in an IPPD environment, including assuming designated roles on IPTs
- Possession of excellent oral and written communication skills
- Defense Acquisition University or Program Management Professional Certification preferred
- BA or BS degree in Engineering, Science, or Mathematics preferred; MA or MS degree or MBA a plus

#### **Clearance:**

Applicants selected will be subject to a security investigation and may need to meet eligibility requirements for access to classified information; Secret clearance is required.
